## Mayor's Message

The 2018-2021 Delivery Program is an important strategic document at a pivotal time for the new Armidale Regional Council.

Our systems are now in place following the merger of the Armidale Dumaresq and Guyra councils. A new staff structure has been implemented, headed by a highly experienced and capable leadership team, and has settled into Council's offices and depots to resume the strategic and day-to-day tasks of serving the community.

The amalgamation process was largely completed last September when a new team of councillors was elected.

All the ingredients are now in place to build upon the possibilities created by the merger, to develop a Council that is more financially viable and better positioned to meet the community's needs. The Delivery Program and accompanying Operational Plan 2018-2019 provide an essential road map to ensure that is achieved.

They set out the objectives of Council for the term of the councillors and the organisation's activities for the coming financial year, while making sure these goals and projects are in line with the public's vision outlined in the Community Strategic Plan 2017-2017.

These documents, as the core of Council's Integrated Planning & Reporting Framework, match community expectations with the level of service, wrapped up by annual reporting on what has been accomplished.

They are driven by close liaison with the community, with yearly reviews of the Delivery Program and each annual Operational Plan to regularly check the objectives still reflect community priorities and requirements.

However, in early 2018-2019, Council will undertake more extensive public engagement about its levels of service. How important are each of the services Council provides and how much is the community prepared to pay to receive the level of service it requires?

We look forward to working with the community so this essential balance can be achieved.

## Our Region

### Our Council

On 12 May 2016, the NSW State Government proclaimed the new Armidale Regional Council, through the merger of Guyra Shire Council and Armidale Dumaresq Council. Dr Ian Tiley was appointed Administrator by the NSW Government to hold the functions of the newly merged Council until the election of a new Council in September 2017.

A renowned regional education hub, home to the University of New England and many leading primary and secondary schools as well as a significant TAFE institute – this region provides the platform for a progressive and innovative culture and a vast pool of professional talent and capability to draw upon.

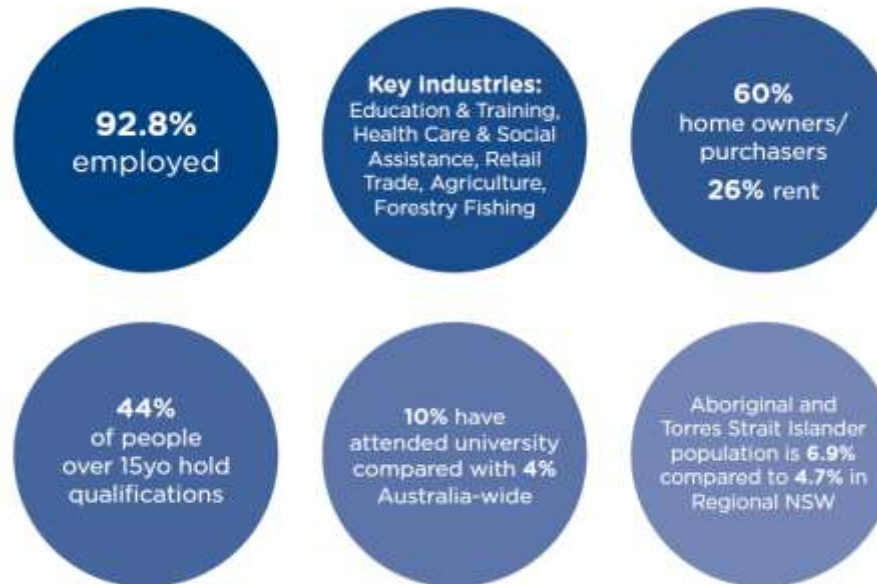

A vibrant digital economy fully connected via fibre to the National Broadband Network enables our community to be digitally connected to Australia and the globe. A leading regional airport that is rapidly expanding with plans to work with a number of airlines to provide more air transport services, more often and to more places. The planned establishment of a major industrial development within the Armidale Airport precinct will attract new industries and create new jobs.

The region is home to many major industries including education services, technology services, agriculture, superfine wool production, beef and lamb production, vineyards and greenhouse horticulture – industries that will underpin sustained growth in the future. A range of community and infrastructure assets include public and private hospitals, aged care facilities, a new “state of the art” library, swimming pools and a full range of leading educational facilities and services.

## Facts and Figures

The Council covers 8,630 square kilometers, with a total population of 30,311. The predominant form of land use is agricultural, which includes sheep and cattle grazing, along with a substantial amount of National Parklands, State Forest, and nature reserves. The main city is Armidale, with smaller townships at Guyra and Tingha, and a series of villages across the Council area.

- Median Age 36
- Average Household Size 2.40
- Aboriginal and Torres Strait Islander population 1,955 (6.9%)
- Australian Citizens 88.5%
- Employed Population 92.8%
- Percentage of the population that need help in their day-to-day lives due to disability 4.6%
- Total Registered Businesses 2,934
- Agriculture, Forestry and Fishing Industry has the largest number of total registered businesses comprising 31.2% of all total registered businesses, compared to 7.8% in New South Wales.

## Growing Tourism and Attracting Visitors

Council launched a new and contemporary brand on Friday 17 March 2017 and is planning to launch a powerful marketing program to attract more visitors to the Armidale (and the broader New England) Region.

**Armidale Regional Council's new brand**

**Connected**  
Council, community & business working together

**Armidale & Dumaresq**  
Education, research, culture, digital

**Guyra**  
Grounded, earthy, belonging, agriculture

---

**ARMIDALE**  
Regional Council

Armidale is surrounded by one of Australia's most beautiful natural environments consisting of four significant national parks each with extraordinary natural attractions and all within a one hour drive of the Armidale town centre.

The region boasts several leading arts and cultural attractions including NERAM - the largest art gallery and collection of art works in Regional NSW and offers a wide range of sporting facilities and events from rugby to mountain biking to golf among a broad range of other competitive sporting events to offer.

**Blue**  
Tranquility, calm, peace, cool

**Green**  
Fertility, money, healing, success, growth

**Purple**  
Wisdom, spirituality, imagination

**Armidale Region**  
Multi-faceted, best of both worlds.  
Connected, unified, strong, balanced

**7 Strategic Attributes**

Cosmopolitan	Cultural
Aspirational	Rural
Intellectual	Digital
Environmental	

## Our Councillors

The election for Armidale Regional Council was held on Saturday 9 September 2017. 11 Councillors were elected for a three year term.

# Overview of Integrated Planning and Reporting (IPR) Framework

The Delivery Program and Operational Plan have been prepared by Council under the IPR Framework enacted by the New South Wales (NSW) Government in October 2009. The Framework was developed to improve all NSW council's long term community, financial and asset planning. The changes aim to assist councils to:

- Integrate and streamline statutory planning and reporting;
- Strengthen strategic focus
- Align with national sustainability frameworks; and
- Ensure accountability and responsiveness to local communities.

The framework requires the development and implementation of the following components:

- A Community Strategic Plan (CSP), developed and maintained with the assistance of a Community Engagement Strategy, and covering a timeframe of at least 10 years;
- A long term Resourcing Strategy for the provision of the resources required to implement the strategies established by the CSP. The Strategy includes a Long Term Financial Plan, Asset Management Plan and Workforce Management Plan;
- A Four Year Delivery Program detailing the principal activities to be undertaken by council to implement the strategies established by the CSP;
- An Annual Operational Plan detailing the activities to be carried out by the Council during the year;
- An Annual Report; and
- An ongoing monitoring and review process.

## Community Strategic Plan

Leading the Council's planning hierarchy; the Community Strategic Plan identifies the community's main priorities and expectations for the future and ways to achieve these goals. Each of the four themes identified in the CSP are replicated in the Delivery Program and Operational Plan.

## Delivery Program

The Delivery Program is a statement of commitment to the community from each newly elected council. In preparing the Delivery Program, Council is identifying and prioritising its objectives to achieve the community's long-term goals. It commits Council to strategies that realise the community objectives identified from this engagement process. The recommendations from this engagement process should be converted into realistic actions.

Council will monitor and evaluate the Delivery Program by:

- Collecting reliable and consistent data over a period of time
- Developing trend lines to show movement of outcomes
- Setting up internal information systems for regular reporting on actions
- Providing regular reports on performance against the annual Operational Plan, which links directly to the Delivery Program.

## Operational Plan

Council's 2018/19 Operational Plan identifies the projects, programs and activities that council will undertake within the financial year towards addressing the actions outlined in the Delivery Program 2018-2021.

Actions which are Council's responsibility are balanced against the available resources. Council does not have full responsibility for implementing or resourcing all of the community's aspirations. Other stakeholders, including government agencies, non-government organisations, community groups and individuals also have a role to play in delivering the outcomes outlined in the Armidale Regional Council Community Strategic Plan 2027.

## Roles of Council

**Provider** – Where the goals and strategic actions fall within Council's responsibility

**Facilitator** – Where assistance can be given by others

**Advocate** – Where Council speaks on behalf of its community

The Community Strategic, Delivery, and Operational Plans will be the responsibility of multiple agencies in an integrated partnership approach. These agencies will undertake actions and report back to Council and Council will in turn report back to the community on the implementation and achievement of the community plans.

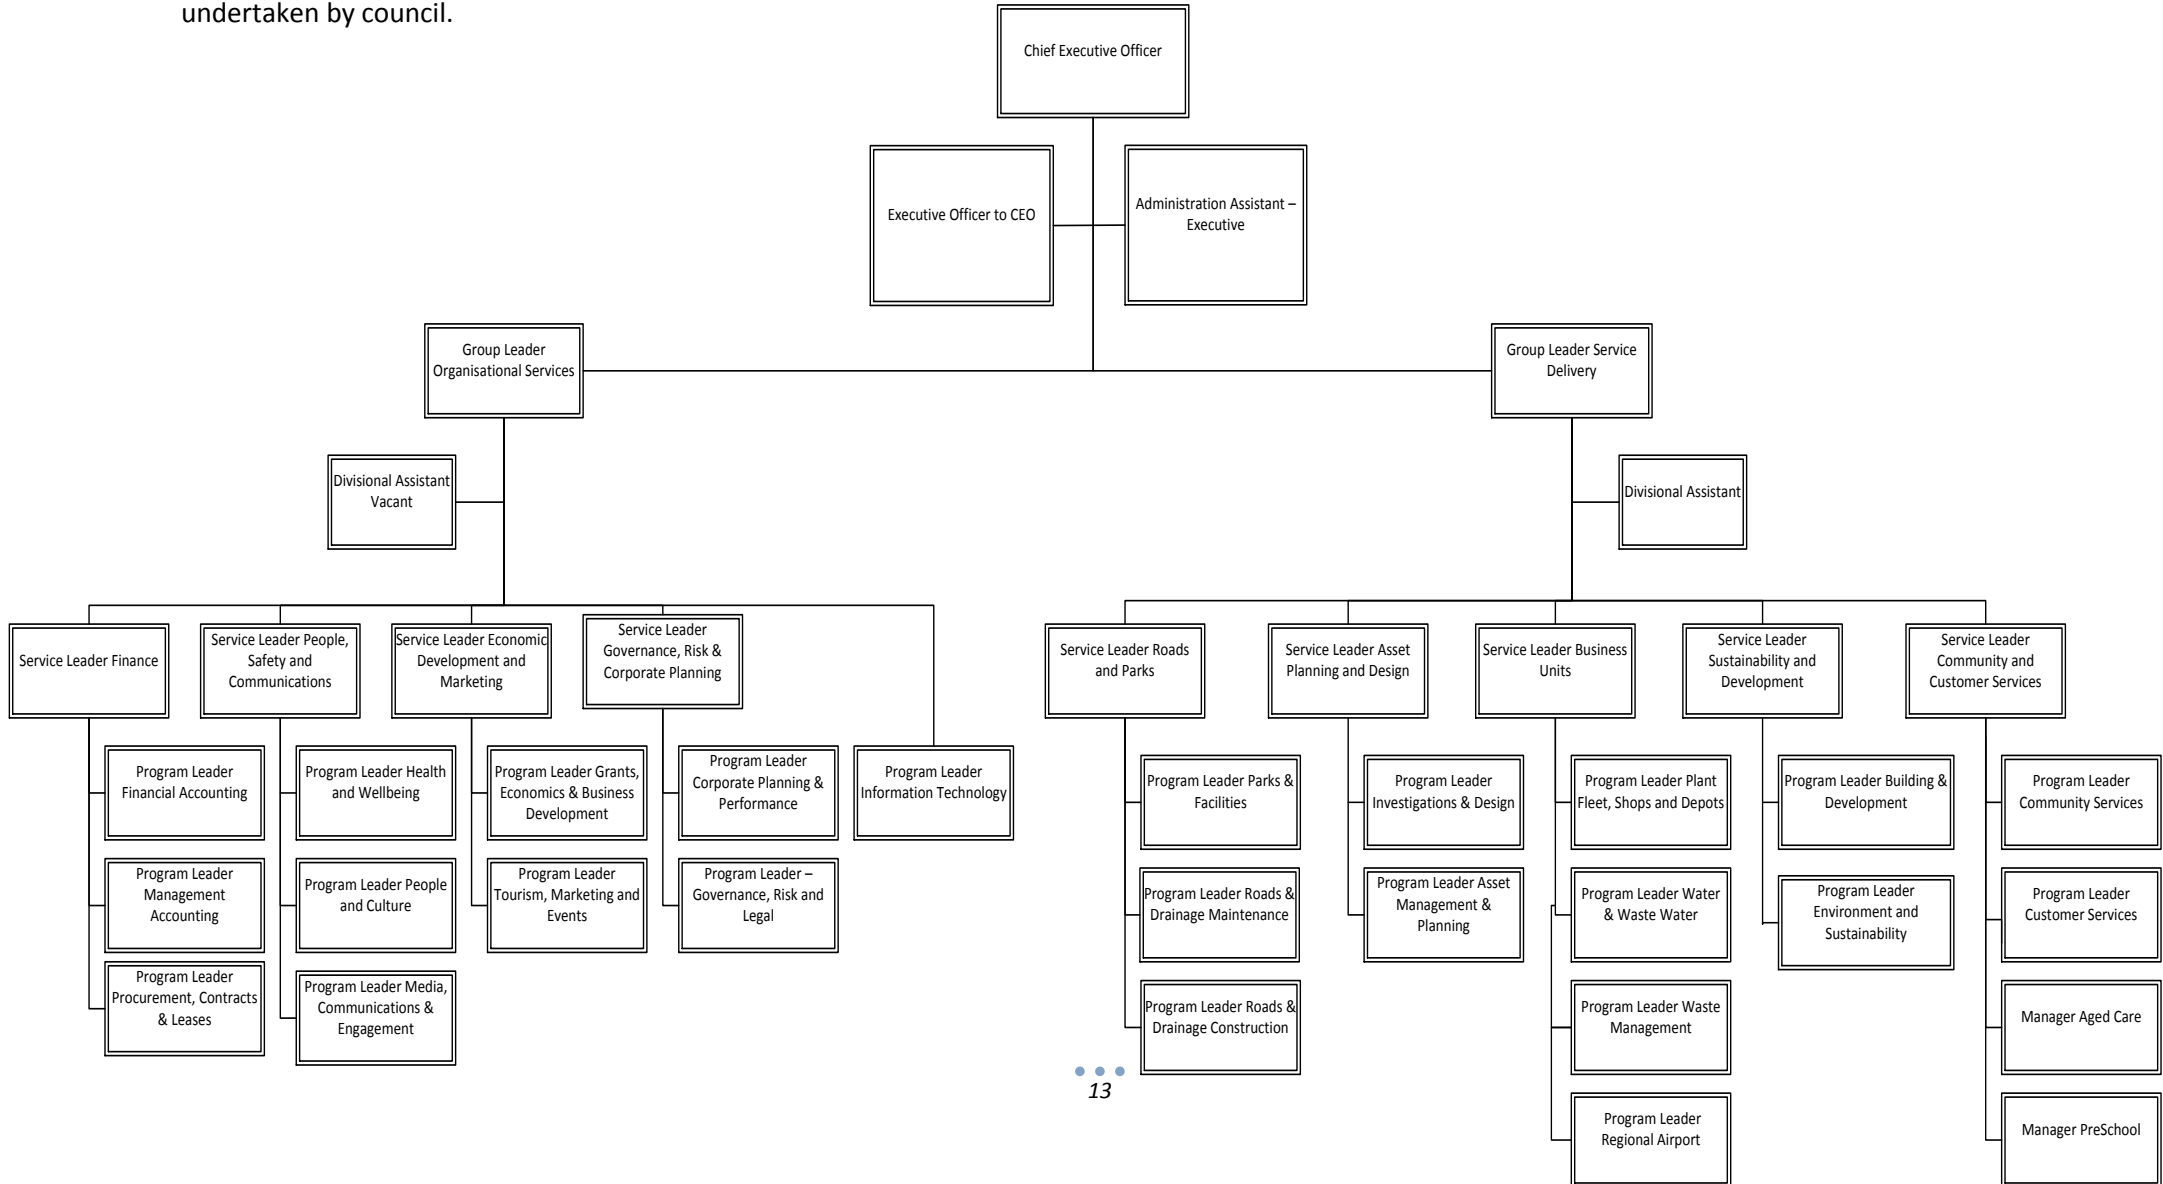

## Characteristics of a Strong Council - A new model for success

“A strong council delivers results for the community, builds successful partnerships and has the leadership, culture, people and capabilities to make this happen.”

	<b>Strategic capacity</b>	The council is a strong partner in the system of government, with a strategic outlook, confidently representing and progressing matters of local and regional significance
	<b>Outstanding service provision</b>	Residents and businesses have an efficient, convenient and satisfying experience when using council services, information and infrastructure
	<b>Robust community relationships</b>	Residents and businesses have a voice in the vision for their community and there is meaningful, open dialogue between the council and community on solving local issues
	<b>Strong performance</b>	The council is a robust, flexible and capable organisation that delivers on the needs of the community
	<b>Sound organisational health</b>	Council staff, leadership and culture directly contribute to the council's success and to positive, customer-centric culture and delivery

# New Organisation Structure

Council’s organisation structure incorporates nine (9) Services as the principal activities it undertakes to help implement the Delivery Program and Operational Plan. The service streams deliver a sub-set of programs which encompass all of the projects, programs and business as usual activities undertaken by council.

## Resourcing Strategy

The Community Strategic Plan 2027 identifies the community's main priorities and long term aspirations and the Resourcing Strategy (under separate cover) supports the Community Strategic Plan, Delivery Program and Operational Plan by detailing how Council can help achieve the priorities in terms of time, money, assets and people.

Effective resource planning ensures there is a focus on the short-term and long-term goals for the Council.

The strategy consists of three components:

### Long Term Financial Plan (LTFP)

The 10 Year Long Term Financial Plan provides an outline of the historical financial performance and financial forecasts based on the information available and decisions made through the planning process. The plans and corresponding financial forecasts are built within the parameters of Council's Financial Strategy. The Financial Strategy provides direction and context for decision making in the allocation, management and use of Council's limited resources.

It sets the parameters within which council plans to operate to provide financial sustainability, affordability, focus and efficiency or value for money, over the short, medium and longer term.

### Asset Management Planning

Council's assets include roads, bridges, footpaths, community facilities, parks, water and sewerage. The challenge for Council is the maintenance and asset renewal as our asset renewal performance is below the indicative benchmarks set in our Financial Strategy.

The Asset Management Plans are being updated to reflect current data and information on our assets, post merger which better inform the discussion and understanding of the issues facing the new Council. Funding the projected renewal of these assets will be a significant challenge for Council and will be reflected in further detail in the LTFP.

### Workforce Management Plan

This four year Plan defines how Council intends to manage its people resources to deliver the services, projects and programs identified in the Delivery Program and Operational Plan. It is flexible and allows for the development of a skilled, motivated and accountable workforce to meet internal and external customer needs.

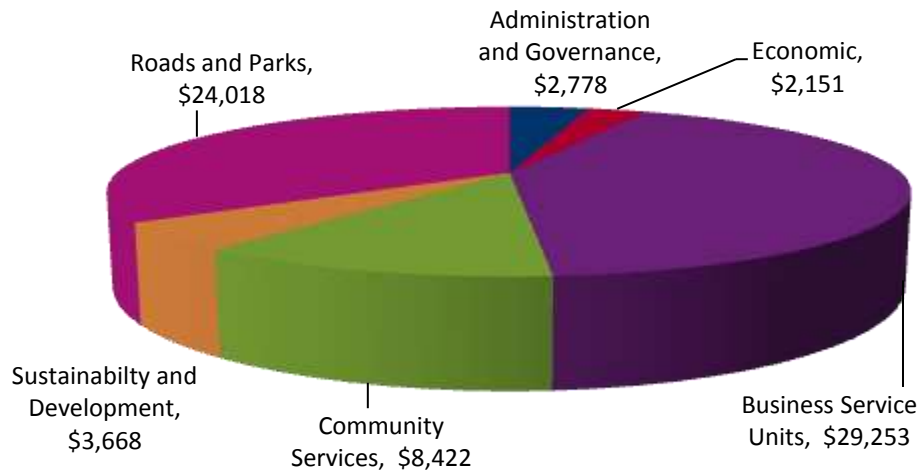

## Our Finances

The Operational Budget (under separate cover) provides an overview of Council’s financial estimates and program of Capital Works for the financial year. The budget is focused on maintaining ‘business as usual’ – delivering on key capital projects and maintaining existing services to the community.

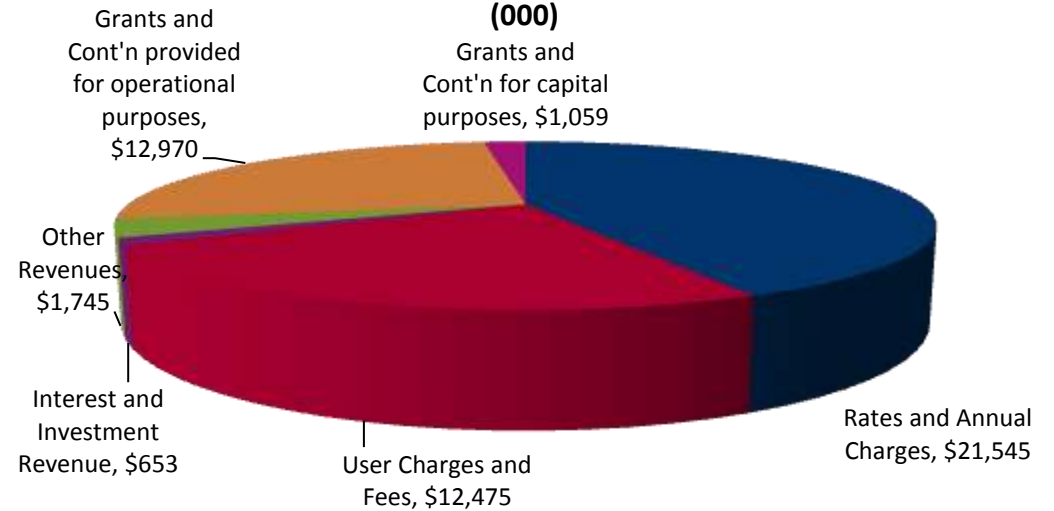

Council aims to have an annual Funds Result that ensures that the organisation remains within the available funds range outlined in the Financial Strategy over the long term. This means there may be individual years with deficit Fund Results due to timing of projects and programs, however over the long term, available funds are maintained.

The 2018-19 Budget and long term financial position encompass the strategic objective of achieving financial sustainability and strengthening the Councils capacity. It is envisaged that through financial discipline and extensive community consultation, financial outcomes that have been targeted to achieve the balance required for longer term financial sustainability will be achieved. Once arriving at this position, it should be possible to renew the existing high value, long lived assets such as roads, bridges, buildings, public toilets and recreation facilities that generally need to be funded over their life.

**Where it is spent**  
(000)

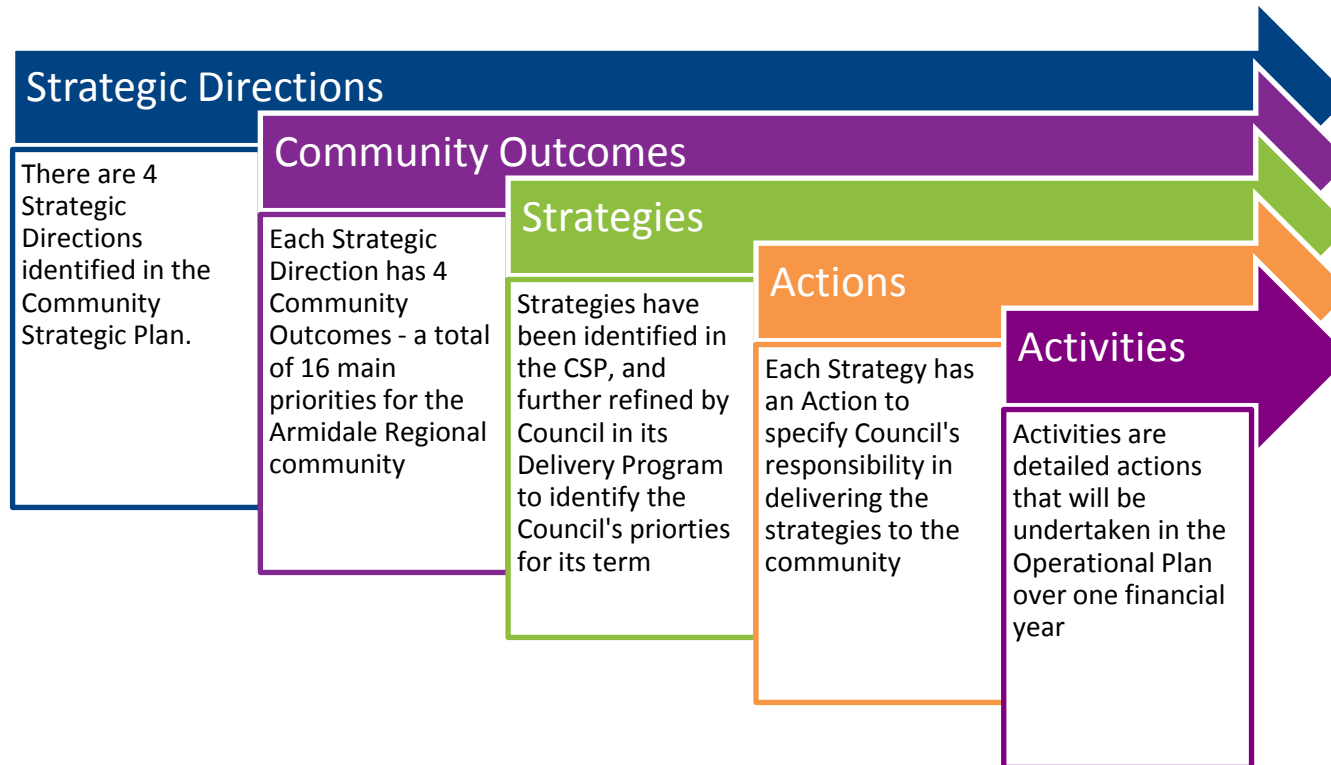

**Revenue Sources**  
(000)

## Structure of the Plans

The Community Strategic Plan identified 4 Strategic Directions which each have Community Outcomes, designed to help Council achieve its overarching vision. The Strategic Directions and Community Outcomes are supported by Strategies which outline how these objectives will be achieved.

# STRATEGIC DIRECTIONS OF COMMUNITY STRATEGIC PLAN
